APRIL 2ND IS WORLD AUTISM AWARENESS DAY!

WORLD AUTISM AWARENESS DAY is internationally recognized on April 2nd every year, encouraging Member States of the United Nations to take measures to raise awareness about people with autism throughout the world. It was designated by United Nations General Assembly resolution 62/139, passed in council on November 1, 2007, & adopted on December 18, 2007. Since its inception autism awareness & research around the world has increased as a result. World Autism Day is also one of only 4 official health-specific UN Days. The day itself brings individual autism organizations together all around the world to aid in things like research, diagnoses, treatment, & overall awareness for those with the disorder.

HIT A POTHOLE? LOOK FOR THESE WARNING SIGNS...

Potholes occur when water permeates the pavement, usually through a crack, and softens the soil beneath it, creating a depression in the surface of the street. Many potholes appear during winter & spring months because of freeze-thaw cycles, which accelerate the process. Potholes can also be prevalent in areas with excessive rainfall & flooding. Hitting a pothole with your car can do a real number on tires, wheels, steering & suspension, and alignment. The non-profit Car Care Council urges motorists to watch for three warning signs to help determine if hitting a pothole has damaged their vehicle.

1. Loss of control, swaying when making routine turns, bottoming out on city streets or bouncing excessively on rough roads are indicators that the steering & suspension may have been damaged. The steering & suspension are key safety-related systems. Together, they largely determine a vehicle's ride & handling.
2. Pulling in one direction, instead of maintaining a straight path, and uneven tire wear, are symptoms of an alignment problem. Proper wheel alignment is important for the lifespan of tires & helps ensure safe handling.
3. Low tire pressure, bulges or blisters on the sidewalls, or dents in the wheel rim will be visible & should be checked out as soon as possible, as tires are the critical connection between the vehicle & the road.

"If you've hit a pothole, it can be difficult to know if & to what extent your car has been damaged," says Rich White, Executive Director, the Car Care Council. "It's a good idea to describe the symptoms to a professional technician who can then check out the vehicle & make the necessary repairs to ensure safety & reliability."

Happy Birthday
to Jennifer!
April 19th

DID YOU KNOW....

After years of false starts & delays, the Hubble Space Telescope was launched into low-Earth orbit as part of a multi-billion-dollar project led by NASA and the European Space Agency. The bus-sized observatory is equipped with an 8' wide focusing mirror & an array of cameras capable of seeing visible, infrared & ultraviolet light, yet the telescope only takes pictures in shades of black & white. The dazzling snaps of nebulae, supernovae & galaxies captured by Hubble are released after undergoing a postproduction process to add color. Hubble's cameras only take photos as gray-scale pixels, so astronomers make multiple exposures of the same object using different filters – typically red, blue & green - to capture various wavelengths of light. These are then overlaid to create a single composite image. Scientists also occasionally insert additional color into the images to bring out details that would otherwise remain invisible to the human eye.

TOTALLY TRIFILING TRIVIA

WHAT DOES THE TERM "URL" STAND FOR?

Answer: Uniform Resource Locator

Anyone who works or plays on the internet has seen or heard the term "URL", which stands for "Uniform Resource Locator." It is an identification system used to find a resource on the internet & is what we often call a web address. The URL tells web browsers where & how to retrieve whatever resource a person is looking for. Users enter the URL into a browser by typing it directly into the browser's address bar, or by clicking on a hyperlink. Webpages, bookmark lists, emails & other forms of internet gateways use hyperlinks as a way to point traffic to a particular website.

Thanks for the Kind Words!

"Excellent customer service and prices are reasonable." – Marcia D.

"I have both my vehicles there. Very nice and professional people there. Have taken care of every problem I have had, and do it in a very timely matter. Would recommend for anyone to take their vehicles there for any reason!!!!" – Allen A.

"This was the first time I used Pro Automotive. The staff are very nice. I will definitely see them in 6 mos. Or 5000 miles." – Diane H.

I SCREAM, YOU SCREAM, WE ALL SCREAM FOR...

The date was April 3, 1892. Ithaca, New York, was dotted with local drug stores, where many a nickel was spent for a dish of ice cream. After Sunday services at the Unitarian Church, the Reverend John M. Scott visited the Platt & Colt Pharmacy in downtown Ithaca for his usual dish of vanilla ice cream. But on that fateful day, history was altered forever. Instead of plain vanilla for the Reverend, Chester Platt dipped his scoop of ice cream into a champagne saucer, poured cherry syrup over the top, and dressed it with a candied cherry. As the two men pondered over what to call the delightful new concoction, Scott proposed that it be named after the day on which it was invented... Cherry Sunday. And so, the ice cream sundae was born!

APRIL 14TH IS NATIONAL PECAN DAY!

Easy Pecan Pie

- 1 cup light or dark corn syrup
- 3 eggs
- 1 cup granulated sugar
- 2 tablespoons butter, melted
- 1 teaspoon pure vanilla extract
- 1-1/2 cups (6 ounces) coarsely chopped pecans
- 1 (9-inch) unbaked or frozen deep-dish pie crust

1. Preheat oven to 350°F.
2. Mix Corn Syrup, eggs, sugar, butter and vanilla using a spoon or a rubber spatula. Stir in pecans and pour the mixture into pie crust.
3. Bake on center rack of oven for 60 to 70 minutes. The pie is done when center reaches 200°F. Tap center surface of pie lightly – it should spring back when done. If pie crust is over-browning, cover edges with foil.
4. If you are using a prepared frozen pie crust, place cookie sheet in oven and preheat oven as directed. Pour filling into frozen crust and bake on preheated cookie sheet.
5. Cool for at least 2 hours on wire rack before serving.

Pecan Pie is Southern baking at its finest. This Pecan Pie recipe is easy & classic, and it takes only minutes to prepare! It's made from pecans with a filling that includes butter, sugar, eggs, and corn syrup. The subtle sweetness of the corn syrup is what really sets this recipe apart from the rest. And this is the perfect pie recipe for beginners, or for kids to get involved in the prep!

FREE ALIGNMENT CHECK!
NO GIMMICKS. NO PURCHASE NECESSARY.

BONUS OFFER
\$30 OFF
Our Regular Alignment Price!

Our techs will check your vehicle's wheel alignment, tire wear & front suspension!
